Dear Michael C. Knorz, MD,

Congratulations on being honored as a Board Certified Fellow in the WCRS inaugural class of Refractive Surgeons.

Being a Charter Fellow is a pinnacle achievement. It is attributed to your excellence in surgical skills and having mastered the practice of refractive surgery, as well as your accomplishments and leadership in teaching, education and/or research. As a Charter Fellow of the WCRS, you are in an elite field of an international core group of less than 1,000 refractive surgeons chosen from over 280,000 ophthalmologists worldwide.

We commend and appreciate your commitment and contributions to the specialty of refractive surgery and hope this certificate honoring your achievement will find a prominent place for display in your office.

Sincerely,  
The WCRS Board of Directors
